Education

Thapar Institute of Engineering and Technology B.E. in Computer Engineering - CGPA: 7.55	2023 – 2027
Delhi Public School, Ruby Park CBSE XII - Aggregate: 93%	2021 – 2022

Projects

Gullak AI — Personal Finance Manager	2026
– Mastered OCR receipt scans, Excel imports, and bank statement analysis with proactive financial insights; optimized inter-layer communication to achieve sub-10ms latency for seamless realtime ux. – Automated analytics pipelines processing 10k+ transactions through bulk imports, enabling metric calculations before RAG-based NLP financial querying that reduced manual expense tracking efforts by 70%. – Transformed passive usage to actionable financial guidance through save-or-spend recommendations, crunch-period alerts using behavioral spends, which led financial engagement by 40% through predictive notification workflows.	
RoleFit - Resume Editor	2025
– AI enabled resume editing platform leveraging semantic similarity, LLM-based optimization, and ATS keyword analysis to tailor resumes against job descriptions, improving role-specific alignment scores by 65%. – Developed scalable resume parsing and customization workflows supporting PDF/DOCX uploads, easy section based text editing, role based resume using master resume, and drafts exports with sub-2s generation latency. – Integrated embedding-based vector retrieval and configurable AI provider support across OpenAI, Gemini APIs, etc. enabling contextual resume scoring, semantic keyword highlighting, and intelligent skill gap analysis.	

Technical Skills

Programming: C++, JavaScript, Python, TypeScript, SQL
Frontend: React.js, Next.js, Tanstack, Tailwind CSS
Backend: Node.js, Express.js, FastAPI, REST APIs
Databases: MongoDB, PostgreSQL, MySQL, Supabase, NeonDb
Others: Websockets, Redis, Docker, Git, GitHub Actions
Coursework: DSA, OOPS, OS, DBMS, Computer Networks

Experience

Tauris Media — <i>Freelance Frontend Developer</i> <u>Live</u>	Nov 2025 – Jan 2026
– Built the company’s first production-ready website as the sole frontend developer, implementing animation-driven responsive UI interactions and accessibility-focused design.	
GlassFactory — <i>Freelance Software Developer</i> <u>Live</u>	Sept 2025 – Oct 2025
– Collaborated on migrating the software from v1 to v2, developing scalable UI systems using mobile first performance oriented approach for a global B2B marketplace architecture.	
Neural Network Labs — <i>Full Stack Intern</i> <u>Live</u>	Jun 2025 – Aug 2025
– Developed infographics and presentation generation workflows using AI agents, background workers, and Gemini integrations to transform prompts into editable slide decks.	

Achievements & Responsibilities

– Semi-Finalist, HPCL Hackathon — Ranked among the Top 50 teams out of 100,000+ nationwide participants.	
ACM Society, Thapar Institute of Engineering and Technology <i>Joint Secretary</i> — Led a team of 50+ juniors to organize technical bootcamps, campaigns, and managed tech & logistics for Eclipse , ACM’s flagship event with 500+ participants.	Aug 2025 – Present
